WhistleB
whistleblowing service
Whistleblowing made trustworthy
“With more than 25 years of experience in the fields of business ethics, we are committed to providing an outstanding whistleblowing solution to safeguard high ethical standards. We help our customers to respond to the increasing demands of transparency, and thus to create sustainable profits. This is at the heart of WhistleB.”

Gunilla Hadders, Co-founder of WhistleB

WhistleB offers a next generation whistleblowing service, a third-party solution that enables a whistleblower to report a suspicion of misconduct in a secure way. Our customers include global and regional companies in various sectors as well as investors, public authorities and associations. We have a market coverage of 150+ countries on all continents.
**Contributing to high business ethics**

**WhistleB´s key contribution**

to our customers is to prevent and reduce the risk of wrongdoings. The scope of whistleblowing covers for example bribery and corruption, improprieties concerning accounting, health and safety issues, discrimination and environmental crimes.

**The purpose of the whistleblowing service**
is to encourage individuals to blow the whistle on suspected misconduct without any risk of retaliation. Whistleblowing is an efficient way to work preventively, and to decrease the risk of a wrongdoing occurring in the first place.

**The WhistleB service**

- Easy to set up & use, customisable over time
- Secure. Compliant with GDPR and ISO 27001
- Global service. Available in 50 languages
- Expert supported. 25 years of experience
This is how it works

1. The whistleblower reports a concern. The communication channel can be accessed from any device, including smartphones.

2. The organisation whistleblowing team receives a notification, logs into the Case management tool to review the message and to take actions.

3. Further dialogue with the anonymous whistleblower is possible thanks to a personal code given at the end of the reporting session.

Communication channel

... allows for anonymous messaging and two-way communication in any language. Receive messages about suspected wrongdoings directly from employees and other stakeholders – and respond with immediate action. A phone-based reporting channel can be integrated when demanded, and on a per country basis.

- Anonymous communication and dialogue
- Informative start page, including legal advice
- Multiple languages
- Multiple communication channels, phone reporting

Case management tool

... for replying to messages reported through the Communication channel and for handling investigation cases safely and correctly. It enables you to follow legal requirements on whistleblowing in different national jurisdictions, and is aligned with legislation for strict handling of personal data.

- Secure log in
- Multiple users, role based
- Multiple teams
- Notifications
- Project management
- Secure translation
- Reports and statistics
- Archiving or deletion of cases

A secure service

WhistleB offers industry-leading security to protect customer data and an anonymous whistleblower, we build this on four pillars:

- Adherence to ISO27001 and ISO 27018 to protect customer information and personal data.
- Highest data privacy and security settings for WhistleB service users.
- Reliable and flexible service platform for hosting and development.
- Commitment to global compliance.

The top priority of the WhistleB service is to safeguard the anonymity of a whistleblower and to protect sensitive customer data. Building trust in the service and protecting sensitive data is paramount for all WhistleB customers, and the principles of “Security by default and by design” are embedded in the WhistleB service. This means that data security is the basis for all functions in the service.

“For WhistleB integrity and data security are key. We are committed to helping customers minimise their risks and strengthen their performance through high ethical procedures and a leading whistleblowing service.”

Karin Henriksson, Co-founder of WhistleB

Legal compliance

The WhistleB solution conforms to the strictest data protection laws in the world. We enable customers to manage their data in compliance with current data protection regulations and GDPR.

Examples of how WhistleB meets key GDPR demands:
- Data is stored within the EU.
- Personal data is secured; data is encrypted in storage and transmission as well as in back-ups.
- User logs are created for follow-up and audits.
- Data can be extracted, corrected and deleted.
- The individual’s right to be forgotten is ensured.

“We ensure that the WhistleB application complies with GDPR. When using the WhistleB service, our customers benefit from the WhistleB GDPR assessment to assure compliance with the GDPR when using the service.”

**Key findings from the WhistleB customer study 2018**

**Whistleblowing benefits:**

- **Prevent**  Reduce the risk of wrongdoing taking place.
- **Get early warning signs**  Deal swiftly with wrongdoings before they escalate.
- **Gain trust**  Show that ethics matters, helps you build a trusted brand.
- More than half of the whistleblowing messages led to an anonymous dialogue between the whistleblower and the employer.
- 50 % of the cases were related to financial irregularities.
- The Compliance Officer and the General Counsel are usually involved in receiving whistleblowing messages. In smaller organisations Human Resources is usually involved.

*Whistleblowing is a hygiene factor for us.*
